IS YOUR HOME POISONING YOUR CHILD?

Lead Poisoning Can Cause:

BEHAVIOR & LEARNING PROBLEMS

Low IQ

COMA

DEATH

Hearing Loss

Reduced Growth

Why Is Lead So Bad?

- Lead hurts your child's developing brain and nervous system.
- Only** a blood test can show if your child has lead.

Where Lead Is Found:

Old House Paint

Toys

Makeup

Water

Dust

Jewelry

Soil

Home Remedies

Imported Candy

Prevention Techniques

- Wet mop floors, window sills, and other surfaces weekly.
- Don't let children chew on lead-painted surfaces
- Run cold water for 1 minute before drinking or using.
