Dangers of Distracted Driving

On Monday, May 23, 2016, students and staff from North Arlington High School (NAHS) partnered with members of the North Arlington Police Department (NAPD) to point out the dangers of distracted driving (texting) and impaired driving (drugs/alcohol). A totaled vehicle and student-created signs are currently displayed in the front parking lot of NAHS, which represents the life-altering events that can take place if a poor decision is made while operating a motor vehicle.
